Ministry Excerpt

The world situation today is that all the philosophical and logical young people are seeking something practical, real, and meaningful to their human life. They may be very much involved in their university studies, yet deep within they are seeking the reality of human life. They do not like being nonsensical, superstitious, or religious. They want to be practical and real. Furthermore, the seeking Christians are seeking after the proper Bible knowledge. The ones who serve in the bookroom in Taiwan told us that the ones who do not meet with us come to buy our Recovery Version and our Life-study of the Bible. They care for the books on the knowledge of spiritual things. All this indicates that deep in the human heart and the Christian heart there is a need, a thirst, and a hunger after the truth. We have to believe that this is the Lord's doing.

The present need of the present world is the truth. Some brothers from the United States went to Taiwan to visit the college campuses there. They discovered that all the students were open not to the superficial things but to the deeper truths. They want to hear the deeper truths from the Bible. When some of them see our Recovery Version of the New Testament, they want to get a copy for themselves. Our God who is the moving and working God is really moving and working in the human heart in these last days, turning human intention toward the seeking after Himself. Many people cannot express exactly what they are seeking after, yet we know that what they are seeking after is the reality of the Triune God. The reality of the Triune God is the real meaning of our human life. The reality of the processed Triune God is what today's world needs.
